

## **THE CONTRIBUTION OF OTHER STAKEHOLDERS TO CHAPLAINCY EDUCATION**

The purpose of this note was to record the efforts which other stakeholders have made to develop and foster chaplaincy education, training and development. Although much of the effort is reported under the NHS Project, those involved have also undertaken work with other organisations and bodies. In particular, the Education Committee of the MFGHC has been supported in its work to focus on preliminary chaplaincy training by members drawn from across the NHS and HEIs.

Revd E J Lewis

January 2009

## ANNEX

	Joint Training Office	Multi-Faith Group for Healthcare Chaplaincy	NHS	DH
